

Biology at Bablake

The Biology Department currently consists of five teaching staff and one dedicated full time Biology Technician. We all work hard together aiming to deliver an exciting and dynamic curriculum incorporating a significant number of practical activities where possible.

We teach Junior Science in years 7 and 8 (all 3 sciences) and Edexcel IGCSE in years 9 to 11. Each staff member has their own laboratory, and all lessons are taught within these rooms.

The subject is extremely popular with nearly all pupils studying Biology at GCSE, and many of these continuing to A Level.

We provide support for all pupils outside of timetabled lessons and this includes structured workshops in KS4. Many of our A level students apply for Biology related degrees, including medicine and bio-medical sciences.

This is an exciting opportunity to join a friendly, supportive department and contribute to our future academic success.
